

ST. MARY'S VOUCHER SYSTEM

User Manual

Client-ready guide for daily voucher entry, printing, reporting, and admin management

Document Type	User Manual
System	St. Mary's Voucher System
Prepared For	Client / Institution Users
Version	Latest deployed version

How to Use This Manual

This manual is written for daily users and admin users. It explains what each screen is used for, what steps to follow, and what to check if something does not work.

Important

Use the login credentials provided by the system admin. Do not share passwords with other users.

New Features Implemented - Quick Overview

The latest version includes the following user-friendly improvements and add-ons:

Login and Access

- College selection before login.
- Credential-based secure login.
- Separate access for admin users and staff users.
- Public sign-up disabled; users are created by admin only.
- User session continues during page refresh where allowed.
- Sign out option added for safe logout.

Admin and User Control

- Admin User Management screen added.
- Create new staff users.
- Create admin users with selected access.
- Change or update admin key.
- Reset user passwords.
- Block and activate users.
- Give college-wise access to users.
- Give feature-wise permissions to users.
- Hide screens and buttons automatically when a user does not have permission.
- View last login and user status details.

College Management

- Manage multiple colleges in the same system.
- Add new college with name, short code, and location.
- Activate or disable colleges.
- Admin can switch between institutions when access is available.
- Voucher records are maintained institution-wise.

Voucher Entry Improvements

- Credit, Debit, and On Account voucher types are available.
- Auto amount-in-words generation.
- Account head dropdown added for faster entry.
- New account heads can be added for future use by permitted users.
- Prepared By, Checked By, and Remarks fields added.
- Payment modes added: Cash, Cheque, NEFT, RTGS, UPI, and DD.
- Cheque / reference number field added.
- Voucher number generation added.
- Clear Form and Reset options added.

Voucher Viewing and Control

- All Vouchers screen for admin.
- My Vouchers screen for staff users.
- Recent vouchers shown on dashboard.
- Search by party name, account head, purpose, paid to, or received from details.
- Filter by date, voucher type, and account head.

- Preview voucher before printing.
- Direct print shortcut added.
- Edit voucher option added for permitted users.
- Delete voucher option added for permitted users.

Reports and Excel

- Filtered Excel export added.
- My Excel export added for staff users where permitted.
- Linked Excel option added for continuous Excel backup.
- Excel summary sheet added.
- Cash Book export added.
- Cash Book separates receipts and payments.
- Cash and bank transaction separation added.
- Institution-wise cash book sheets added.

Printing Improvements

- Print preview modal added.
- A4 single voucher printing option.
- A4 two-vouchers-per-page option.
- A5 direct print option.
- Colour print toggle added.
- Default paper size setting added.
- Printer setup page added.
- USB / thermal printer support added where configured.
- Network / office printer guidance added.
- Advanced direct/silent print options added for IT setup.

Tracking and Safety

- Activity records added for important actions.
- Admin can check who created, edited, deleted, or changed records.
- User actions are tracked for accountability.
- Deleted voucher actions are recorded.
- Permission-based system reduces accidental access.
- Toast messages and status messages added for better confirmation.

User Experience

- Cleaner dashboard layout.
- Clear navigation sidebar.
- Responsive layout improvements for smaller screens.
- Helpful empty-state messages when no records are found.
- Faster daily workflow for accounts users.
- Better separation between admin work and staff work.

30. Quick Reference Checklists

1. Purpose of the Software

St. Mary's Voucher System is used to create, manage, print, and export vouchers for the institution.

The system helps users maintain voucher records in a clean and organized way. Users can create Credit Vouchers, Debit Vouchers, and On Account Vouchers. Admin users can also view reports, manage users, export Excel files, and maintain records institution-wise.

2. Login Instructions

1. Open the voucher software link provided by the admin.
2. Select your college/institution.
3. Enter your username and password.
4. Click Sign In.

After login, the screen will open based on your access level.

3. College Selection

When the software opens, the user will first see the college selection screen.

Available institutions:

5. St. Mary's Group of Institutions Guntur For Women
6. St. Mary's Women's Engineering College, Budampadu

Select the required college and continue to login.

4. User Types

Admin User

Admin user can manage the complete voucher system.

Admin can:

- View dashboard
- View all vouchers
- Create vouchers
- Edit vouchers
- Delete vouchers
- Print vouchers
- Export Excel reports
- Export Cash Book
- Manage users
- Manage colleges
- Manage permissions
- Reset passwords
- View activity records

Staff / Normal User

Staff users can work based on permissions given by admin.

Usually staff users can:

- Create voucher
- View their own vouchers
- Print vouchers

Some users may get extra permissions like Excel export, all voucher view, or printer setup depending on admin approval.

5. Dashboard

After login, the dashboard shows a quick summary.

The dashboard may show:

- Total vouchers
- Total voucher amount
- Today's vouchers
- Credit voucher count
- Debit voucher count
- On Account voucher count
- Recent vouchers

For normal users, only their own voucher summary will be shown.

6. Creating a New Voucher

To create a voucher:

7. Click New Voucher.
8. Select voucher type: Credit Voucher, Debit Voucher, or On Account Voucher.
9. Select date.
10. Fill the required voucher details.
11. Enter amount.
12. Amount in words will be filled automatically.
13. Enter purpose/towards details.
14. Select payment mode.
15. Add cheque/reference number if needed.
16. Enter prepared by / checked by details.
17. Click Save Voucher.

After saving, the voucher will be stored in the system.

7. Credit Voucher

Use Credit Voucher when money is received.

Fill these details:

- Credit A/c
- Account Head
- Amount
- Received From
- Towards / Purpose
- Mode
- Cheque / Reference No.
- Prepared By
- Checked By
- Remarks if any

8. Debit Voucher

Use Debit Voucher when payment is made.

Fill these details:

- Debit A/c
- Paid To
- Amount
- Towards / Purpose
- Mode
- Cheque / Reference No.
- Prepared By
- Checked By
- Remarks if any

9. On Account Voucher

Use On Account Voucher for account-related transactions.

Fill these details:

- Debit A/c
- Paid To
- Amount
- Towards / Purpose
- Mode
- Reference No.
- Prepared By
- Checked By
- Remarks if any

10. Viewing Vouchers

Admin View

Admin can open All Vouchers and view all records.

Admin can:

- Search vouchers
- Filter by date
- Filter by voucher type
- Filter by account head
- Preview voucher
- Print voucher
- Edit voucher
- Delete voucher
- Export Excel

Staff View

Staff users can open My Vouchers.

Staff can see only vouchers created by them unless admin gives extra access.

Staff can:

- Search own vouchers
- Filter by date
- Filter by voucher type
- Filter by account head
- Preview voucher
- Print voucher
- Export own vouchers if permission is given

11. Searching and Filtering

Users can search vouchers using:

- Party name
- Account head
- Purpose
- Paid to / received from details

Users can also filter by:

- Date
- Voucher type
- Account head

This helps quickly find old voucher records.

12. Preview and Print Voucher

To print a voucher:

18. Open the voucher list.
19. Click the Preview or Print button.
20. Check the voucher details.
21. Select paper size if required.
22. Click Print.
23. Select the printer from the print window.
24. Confirm printing.

Available print sizes:

- A4 single voucher
- A4 two vouchers per page
- A5 direct print

Colour print option is also available if required.

13. Excel Export

Admin can export voucher records into Excel.

Excel export can be used for:

- Record keeping
- Accounts checking
- Monthly reports
- Filtered voucher reports
- Backup

To export:

25. Go to All Vouchers.
26. Apply filters if required.
27. Click Export Excel.
28. Excel file will be downloaded.

Normal users can export their own vouchers only if permission is given.

14. Linked Excel Option

The system also has a Link Excel option.

When Excel is linked, newly saved vouchers can update the linked Excel file automatically.

Use this when the accounts team wants to maintain a continuous Excel backup.

Basic steps:

29. Click Link Excel.
30. Select the Excel file.
31. Allow permission.
32. Save vouchers normally.
33. Excel will be updated automatically.

15. Cash Book Export

Admin can export Cash Book from the system.

Cash Book separates:

- Receipts
- Payments

- Cash transactions
- Bank transactions
- Head account details

To export:

34. Go to All Vouchers.
35. Click Cash Book.
36. Excel file will be downloaded.

16. Printer Setup

Printer Setup is used to configure printing options.

Users can select:

- Default paper size
- Print behaviour
- Printer method

For normal office use, the user can simply click Print and select the printer from the print window.

For direct or silent printing, admin or IT support may configure printer settings.

17. User Management

User Management is available only for admin users.

Admin can:

- Create new users
- Create admin users
- Set user password
- Reset password
- Block user
- Activate user
- Give college access
- Give or remove permissions

18. Creating a New User

Admin steps:

37. Go to User Management.
38. Open Create Admin / User section.
39. Enter full name.
40. Enter username.
41. Enter password.
42. Select user type: User or Admin.
43. Select primary college.
44. Select college access.
45. Select permissions.
46. Click Create User.

After this, the user can login using the given credentials.

19. Resetting User Password

Admin steps:

47. Go to User Management.
48. Find the user.
49. Click Reset.
50. Enter new password.
51. Save.

The user can login with the new password.

20. Blocking or Activating User

Admin can block a user when access should be stopped.

Steps:

52. Go to User Management.
53. Find the user.
54. Click Block.
55. Confirm.

To allow the user again, click Activate.

21. Permissions

Admin can control what each user can access.

Common permissions include:

- Create voucher
- View own vouchers
- View all vouchers
- Edit voucher
- Delete voucher
- Print voucher
- Export Excel
- Cash Book
- Printer Setup
- User Management
- College Management
- Audit View

Only give permissions based on the user's role and responsibility.

22. College Management

Admin can manage institutions inside the software.

Admin can:

- Add new college
- Add short code
- Add location
- Activate college
- Disable college

This is useful when the same voucher system is used for multiple colleges.

23. Activity / Audit Records

Admin can view activity records.

This helps track:

- Who logged in
- Who created voucher
- Who edited voucher
- Who deleted voucher
- Who created user
- Who reset password
- Who changed college/user status

This improves accountability and record safety.

24. Sign Out

After finishing work:

56. Click Sign Out.
57. Close the browser tab if required.

Users should always sign out after work, especially on shared computers.

25. Important Usage Guidelines

- Do not share your login password with others.
- Always select the correct college before login.
- Check voucher details before printing.
- Use correct voucher type.
- Use proper account head.
- Enter purpose clearly.
- Do not delete vouchers unless required.
- Export Excel regularly for records.
- Contact admin if your access is missing.
- Contact admin if password is forgotten.

26. Common Issues and Solutions

Issue: Cannot login

Check:

- Correct college selected
- Correct username
- Correct password
- User is active
- If still not working, contact admin.

Issue: Voucher not saving

Check:

- Date is selected
- Amount is entered
- Required fields are filled
- Internet connection is working

Issue: Printer not showing

Check:

- Printer is connected
- Printer is switched on
- Printer is added in system settings
- Correct printer selected in print window

Issue: Excel not downloading

Check:

- Browser download permission
- Pop-up/download blocking
- Try again after refreshing the page

Issue: Linked Excel not updating

Check:

- Excel file permission

- Browser permission
- Click Link Excel again and allow access

27. Recommended Daily Process

58. Login to the voucher system.
59. Create vouchers as required.
60. Print voucher after checking details.
61. Review saved vouchers.
62. Export Excel if required.
63. Sign out after work.

28. Recommended Admin Process

64. Login as admin.
65. Check dashboard.
66. Review today's vouchers.
67. Check user entries if needed.
68. Export Excel / Cash Book regularly.
69. Manage user access carefully.
70. Review activity logs when required.
71. Sign out after work.

29. Support

For login, access, password, printer, or voucher-related issues, contact the system admin / IT support team.

30. Quick Reference Checklists

Daily Voucher Entry Checklist

- Correct college selected
- Correct voucher type selected
- Date checked
- Party / Paid To / Received From entered
- Account head entered
- Amount entered
- Purpose entered clearly
- Payment mode selected
- Reference number added if applicable
- Prepared By / Checked By filled
- Voucher saved
- Voucher preview checked before print

Admin Safety Checklist

- Create users only for approved staff
- Give only required permissions
- Block users when access is no longer needed
- Reset passwords only after confirmation
- Review activity records when required
- Export reports regularly
- Keep admin credentials safe
